## DMT Bank Note Dust

DMT GmbH & Co. KG  
 Plant & Product Safety  
 Refrigeration & Air Quality

Am TÜV 1  
 45307 Essen, Germany

- |                                  |  |
|----------------------------------|--|
| <b>1. General description:</b>   | Test dust for use in filter and environmental tests. More information can be found in the Downloads section.   |
| <b>2. Composition:</b>           | The particle size distribution of DMT Bank Note Dust is between 0 - 100 µm.  |
| <b>3. Transport and Storage:</b> | Partial segregation may occur during transport and storage. It is therefore recommended to homogenize the DMT Bank Note Dust before use, which can be achieved by mixing with a laboratory tumbler mixer. Please store in a dry and airtight original container.                                       |
| <b>4. Quality ensurance:</b>     | <p>In order to achieve reproducible quality, the raw materials and production are strictly controlled. The following quality controls are carried out:</p> <p>Monitoring the particle size distribution of raw materials<br/>         Monitoring the particle size distribution of the end product</p> |
| <b>5. Specification:</b>         | <p><b>Name :</b> DMT Bank Note Dust</p> <p><b>Composition :</b> Calcium magnesium carbonate</p> <p><b>largest particle size (µm) :</b> 100</p> <p><b>Apperance :</b> solid</p> <p><b>Hardness (Mohs):</b> 3,5</p> <p><b>Colour :</b> white</p>   |
